HONORS AND AWARDS

Presidential Poster Award, American College of Gastroenterology National Meeting, San Diego, 2009
Winner, New York Society for Gastrointestinal Endoscopy Fellow's Competition, 2009
1st Place, Resident Research Night, Beth Israel Deaconess Medical Center, 2008
Recipient, Milton B. Rosenbluth Foundation Global Health Fellowship, 2005
Eagle Scout

RESEARCH

Weill Graduate School of Medical Sciences of Cornell University Summer 2009

- Intense certificate program in clinical epidemiology and health services research
- Devised qualitative and quantitative research studies with a focus on colon cancer screening

New York Presbyterian Hospital – Weill Cornell Medical College 2008 - 2010

- Compared quality of bowel preparation in diabetic versus non-diabetic patients after standard polyethylene glycol lavage, *Mentor: Dr. Brian Bosworth*
- Investigated role of fecal bacteriotherapy in patients with refractory *Clostridium Difficile* infection, *Mentor: Dr. Carl Crawford*

Beth Israel Deaconess Medical Center, Department of Gastroenterology 2006 - 2008

- CO-PILOT study: Performed secondary outcomes analysis of low-dose peginterferon alfa-2b versus colchicine in Hepatitis C patients with advanced fibrosis who had previously failed interferon-based therapies, *Mentor: Dr. Nezam Afdhal*

University of Michigan Medical Center, Research Intern Summer 1999

- Functioned as part of five-member team in the Department of Cardiology on collection and analysis of brachial reactivity data from various patient groups as measure for arterial disease
- Investigated effects of vascular endothelial growth factor on flow reserve in patients with peripheral vascular disease, *Mentor: Dr. Sanjay Rajagopalan*

POLICY AND INTERNATIONAL EXPERIENCE

Bugando University Health Sciences Center, Mwanza, Tanzania Feb - March 2011

- Lectured 4th year medical students on various topics in gastroenterology and hepatology
- Performed clinical and endoscopic evaluation of patients afflicted by Schistosomiasis
- Taught basic principles of endoscopy to Internal Medicine Residents

Groote Schuur Hospital, University of Cape Town, *Western Cape, South Africa*

Feb-March 2008

- Hands-on clinical experience in Departments of Gastroenterology and Hepatology
- Participated in care of patients with unique disease presentations including variegate porphyria and amebic liver disease

Medical Education in Cooperation with Cuba, *Havana and Pinar del Rio, Cuba*

Summer 2001

- Comprehensive public health elective at the Carlos Finlay School of Public Health, Havana
- Gained an in-depth understanding of the Cuban public health system and approach to medicine

New York City Department of Health, *Intern*

Summer 2000

- Worked with Assistant Commissioner of Health in Bureau of Communicable Disease
- Helped develop active and passive surveillance systems for West Nile virus in New York
